## THE COUNTY AGENT AND FARM BUREAU

BY R. G. ARNOLD

A good meeting in regard to the County Fair was held at Elba on Tuesday night of last week. It looks very much like a Fair for Coffee County which will be a big event of the year. We trust that everybody will co-operate in this movement and put the movement on in big style.

## Egg Marketing Thru The Farm Bureau

This week we are in attendance upon a meeting in Montgomery for the purpose of beginning the co-operative marketing of poultry products. This is something needed worse in Coffee County than anything else, as it will put money in the pockets of every man, woman and child on the farm, and a few cents each week extra to every person on the farm will amount to thousands of dollars in the run of a year. Everybody favors co-operative marketing, even the President of the United States and big business everywhere see that this is the only help of a real value to the farmer, and we sincerely hope that every merchant and banker in Coffee County will help the farmers put over the big program of co-operative marketing of hogs, cotton, peanuts and eggs in the good year 1924. Where is the man against something that is for the good of all? Let him speak out in the open so that he may be heard of all men. We do not believe that there is a single human being in Coffee County that is against co-operative marketing if it is launched on a business basis. We have a most progressive farmer-citizenry in Coffee, and equally as progressive set of business men and banks, and we expect to do that big job not by any particular class of citizens for any special class, but rather the whole working for the common good in mutual confidence and honest frankness.

We have orders every day for settings of eggs and pigs for the boys and girls in the clubs. Eggs are selling from the best selected hens at \$3.00 per setting, and pigs \$15.00 each, registered, vaccinated, and delivered at your station. Best breeding and individuality. You will be satisfied. Send in your boy or girl's name and have them enrolled in the club. It will mean lots for their practical education, and after all this is what counts.

## Coffee County Farmers Planting Best Cotton Seed

We have ordered over 1000 bushels of the very best cotton seed thru the Farm Bureau for the farmers of the county. The seed ordered have been the Cook variety. There are also some good Toole seed for sale by firms in the county. We endorse this seed along with the Cook. It is a good cotton and wilt proof.

## MR. HUNTER SEEKS PLACE ON SCHOOL BOARD

Mr. W. L. Hunter, well known citizen of New Brockton, is formally announcing today for one of the places to be filled on the County Board of Education in the coming primary.

Mr. Hunter is a splendid citizen and farmer of the Farm Bureau's Academy community. ## LIVERNE-ELBA HIGHWAY SOUGHT OF COMMISSION

Prominent citizens of the counties of Coffee and Crenshaw called at the state highway department Thursday lay before the highway commission proposal for construction of a highway from Liverne to Elba, via Glenwood, and reconstruction of a bridge over the Conecuh river, on the same route.

The commission not being in session, and the commissioners being out of town, also the state highway engineer, members of the delegation discussed the proposed road with Principal Assistant State Highway Engineer Colonel W. A. McCalla. He advised them that the road they recommended is not in the 1924-25 road building program and also recommended that they take up the matter with the commissioners when that body convenes on April 7th.

The delegation included Judge J. A. Carnley, probate Judge of Coffee; Judge R. T. Simon, probate judge of Crenshaw county; P. A. Lanford, of Highland Home; J. F. Ross, county engineer for Crenshaw county and A. D. Jackson, of Glenwood, county commissioner of Crenshaw.—Montgomery Advertiser.

## MR. CARLISLE CANDIDATE FOR SUPERINTENDENT

M. G. W. Carlisle, of Enterprise, has his formal announcement in today's paper for the office of Superintendent of Education, in the democratic primary of May 13th.

Mr. Carlisle is too well known to the people of the county to need any introduction from us. He has always taken an active part in public affairs, and especially schools. He is a former teacher. He is well qualified for the office, and should be elected, no doubt would make the county a good superintendent. His friends throughout the county will be interested in his race.

Bankers Urge Feed Production at Home

Bankers of Blount County have decided that they will refuse to lend money to farmers to buy feed after 1924. They are so notifying the farmers of that County in a co-operative advertisement which is being run in the Southern Democrat, published at Oneonta, Ga.

Information reaching Auburn is to the effect that this announcement is attracting considerable interest and that bankers in other counties are giving it serious consideration. The idea was suggested by F. G. Stephens, Editor of the Southern Democrat and President of the Alabama Press Association, which is confident that it will have a very wholesome effect on the future agriculture of Blount County.

The announcement, which is made "To the farmers of Blount County," is signed by the First National Bank of Elba, the Elba Trust and Banking Company, and the Blount County Bank. It reads as follows: "Having the best interest of Blount County farmers at heart and knowing that your interest is our interest, and that Blount County is not prospering as she should, we, the undersigned bankers, have decided that our policy in the future will be to refuse to loan money to farmers to buy feed after the year of our Lord, 1924."

The step taken by these bankers has received editorial comment in daily and weekly papers. Some of them call on banks in other counties to take the same stand, and ask that the merchants support the bank in doing so. It is agreed to be both sound and timely.

JOHN W. EDGAR.

On Sunday morning, at 3 o'clock, the spirit of John W. Edgar, who resided near Tabernacle in Beat 12, departed this earth. He had been a sufferer from a complication of diseases for a long time, and the immediate cause of his death, however, being acute bronchitis.

Mr. Edgar had resided in the same community for nearly a quarter of a century, and was a man of 60 years of age, and a man of high character, and a host of other relatives and friends.

Funeral services were conducted at Tabernacle cemetery Monday morning. A large concourse of friends followed the remains to their last resting place.—Enterprise Ledger.

## EGGS WILL BE SOLD ON CO-OPERATIVE PLAN

Auburn, April 1.—Eggs will be the third farm product in Alabama to be sold through a giant State-wide co-operative marketing association. While in conference with officials of the Extension Service here, Edward A. O'Neal, President of the Alabama Farm Bureau Federation, made this announcement.

As outlined by Mr. O'Neal, the tentative plans are to start the membership campaign at an early date with the view to securing at least 100,000 hens, and to begin marketing eggs some time next fall. The organization will be known as the Alabama Farm Bureau Poultry Products Co-operative Association, and will have headquarters in connection with other Farm Bureau activities in Montgomery.

With 100,000 hens Mr. O'Neal said that the new organization should handle 500,000 dozens of eggs the first year, because the average Alabama hen lays five dozen eggs annually. If the minimum goal of 100,000 hens should be doubled, as leaders of the movement believe it will be, the Association should handle annually 1,000,000 dozen eggs, making it one of a group of the largest egg marketing associations in the United States.

Farm Bureau officials have been assisted by Extension Service workers in studying the egg marketing situation in Alabama and in making plans for the proposed marketing association. Prof. L. N. Duncan, Director of the Alabama Extension Service, has assured President O'Neal that county agents and home demonstration agents and other Extension workers will cooperate with the farmers in setting up and operating an egg marketing association.

## TOT IS DROWNED BEFORE MOTHER'S EYES

Tuscumbia, Ala., March 30.—The six year old son of Mr. and Mrs. G. W. Copeland, who reside at Nitrate Plant No. 1, Tuscumbia, was drowned in Spring Creek, which runs through the plant, Friday afternoon.

Mrs. Copeland had taken her three children out for a walk, when the child stepped on a rotten plank and was thrown into the stream. The frantic mother waded far into the creek in an effort to rescue the child, but he was carried away by the swift current. The water at the point where the child fell in was 10 feet deep. The body was recovered about 45 minutes after the accident occurred.

Funeral services were held at the home conducted by Rev. L. G. Sturdivant. Interment followed at Oakwood Cemetery.

THE DISH PARTY.

Once upon a time a cup and saucer lived in the kitchen of a very big house. One night they gave a party and invited the plates, glasses, knives, forks, spoons and all the other cups and saucers.

The party began at eight o'clock and when the clock struck twelve the guests were still there, every guest was there with shining faces because they had just been scrubbed with Old Dutch Cleanser. They played all kinds of games and had several contests. The knife and fork were voted the best dancers there. The cat band made beautiful music all night long for them. They danced until daybreak, when they heard the cook coming. They stopped dancing at once and began running to their places on the shelves. They were so busy they forgot to tell the cup and saucer they enjoyed the party. The saucer seamed pored to its place, while the cup hung itself upon a hook on the shelf.

When the cook came into the kitchen all the dishes were sound asleep.

When Emil Ambros, of Ohio, died he left a fund to be used by his friends and their children to provide a banquet every year, and as if he were making merry with them. The memorial was recently in Columbus.

Next Sunday our church is to hold a memorial of one of our friends, and He wants us to hold this, not "as if" He were present, but because He really is, in the observation of the supper instituted 18 centuries ago. This life was not destroyed but beautified—like that water-fall you have seen coming over a high precipice. It looks to the casual observer that when the rude winds strike it and break it to fragments that it is destroyed. But the close observer sees it torn into mist, and on its brow a beautiful rainbow. At no other point in all its course is the stream so beautiful; and beyond this sorrow it gathers itself together and runs calmer and fuller of strength, with not a particle of its real self wasted. This is why we observe the sacrament, and applying this same analogy to ourselves we can see why we as Christians can shine in rarer splendor and richer lustre than in the days before our lives had experienced a sorrow.

Our Sunday School was larger last Sunday than it has been in several years. Yet several of the old timers were not there to rejoice with us over that fact. Be there next time. Your contribution for the orphanage was appreciated.

We are hoping for a great celebration for next Easter. We want to make a great cash contribution to the superannate preachers in giving our cash on the Ten Million dollar drive.

We appreciated the presence of the other churches of the town with us last Sunday, in our special efforts regarding the amusement question. We trust that there will be some good come out of it.

Next Monday night at the School Chapel will be given a moving picture entitled, "The Life of Christ" by a special religious organization of America. This is a school benefit production and you are cordially invited by the school authorities to attend. Admission 20 and 40 cents.

There will be services at Liberty church at 3:00 p. m. next Sunday.

Mrs. L. C. Kersh and Mrs. Gordon Prescott are both better from sickness which kept them away from services last worship day. Mrs. M. V. Wilson was sick enough to have the doctor visit her twice Tuesday night. We hope for her a speedy recovery.

In the spring-time when a young man's fancies lightly turn to thoughts of—summer clothes, let him seriously turn them on church affairs.

**NOTORIOUS BANDIT DIES IN OKLAHOMA WITH HIS BOOTS ON.**  
Tulsa, Okla., March 26.—Ed Lockhart, last of a trio of notorious Oklahoma outlaws, was killed today near Sperry, Okla., as he attempted to escape officers who had trapped him.

Lockhart went like a pal, "With his boots on," and defying the law. Henry Starr, who died of wounds received when he attempted to rob the Peoples State bank at Harrison, Ark., in February, 1921, and Al Spencer, shot to death when a posse invaded his retreat in the Osage hills last September 15, were the other members of the "big three" of Oklahoma's recent criminal history.

# THE ELBA CLIPPER

ELBA, ALABAMA, THURSDAY, APRIL 10TH, 1924.

## THE COUNTY AGENT AND FARM BUREAU

BY R. G. ARNOLD

## Fertilizers to Use Now.

As most everybody is planting now let us not forget the best methods and practices of fertilizing our crops. Remember that the best farmers in South East Alabama experimenting for the past thirteen years with all kinds of fertilizer mixtures in co-operation with the Alabama Experiment Station have found that on these soils right here in Alabama the most efficient requires not less than 200 pounds of acid phosphate, 50 pounds of muriate of potash and 25 pounds of soap all mixed and put down in the fall.

Remember also not to fertilize corn when you plant it, but wait till it gets about knee high and apply about 100 pounds of the Royal Service.

Also remember that peanuts need phosphate only and this applied at planting, about 200 pounds per acre. In some cases where peanuts follow cotton and the cotton was heavily fertilized last year with phosphate it will not pay to put any phosphate at all under the peanuts.

If you will practice these few recommendations they will save you money and make big yields, and also remember that these suggestions are no mine, but the advice given out by numbers of Alabama's best farmers who have tried them in the field for 13 years and found them good.

These farmers' suggestions are all they have meat in their smokehouses and corn in their cribs the year round, and if anyone desires their names we are ready to give them.

**Coffee County To Begin Marketing Eggs Co-operatively August 1st.**

It has been definitely decided to begin the co-operative marketing of eggs thru the Alabama Farm Bureau by August 1st.
